Jackson Township Government Overview

C. Jackson Township Government Overview

1. Economic Development

Jackson Township completed its first major hurdle toward moving aggressively and cooperatively forward on economic development for the Jackson Township community. By completing a Cooperative Economic Development Agreement (CEDA) with the City of Canton, Township officials initiated a long-term development structure for the betterment of Jackson Township and the entire Stark County region.

The CEDA agreement accomplished two major goals for Jackson Township and the residents. First, it successfully protects our eastern border (west of the railroad tracks) from encroachment and annexation threats from North Canton. Such aggressive annexation would have been a serious threat to major parts of Jackson Township's economic base, including our industrial areas, the Strip and Belden Village Mall. If such annexations had taken place, they would have had a devastating impact on Jackson's ability to provide the quality police, fire/EMS, road, and other Township services that our residents expect.

Second, it allows Jackson Township and the City of Canton to establish a partnership to negotiate Joint Economic Development Districts (JEDD's) and CEDA's to assist companies in locating to our Township and to provide them with the necessary infrastructure and personnel that are already in place to service these areas and to attract businesses for development. By working together, we can jointly market properties for development and share in the tax revenue in order to provide the infrastructure. We would be able to leverage both our strengths to provide attractive options for new businesses, companies and organizations that neither Jackson nor Canton could do on their own.

We firmly believe this economic development agreement between Jackson Township and the City of Canton will lead the way for years to come in bringing new jobs to our Township and region. We have done so without increasing the tax burden on our residents or any businesses that do not want to be a part of these newly developed areas.

This is truly an example of two communities working together for the betterment of Jackson Township and Stark County, by working harder and smarter. This is exactly the kind of leadership Jackson Township residents want from their government...cooperative, forward-looking, and a win-win for all.

On August 23, 2011, Jackson Township entered into an economic development agreement with the City of Canton, which provides for shared income tax on any new Joint Economic Development District (JEDD) agreements. The first JEDD is located on land at the corner of Frank Avenue and Shuffel. The land was transferred by the State of Ohio from the Highway Patrol to Stark State College. The first project at this location is the Stark State College and Timken Company's Wind Energy Research and Development Center. All who work on that land, including the construction workers who build the facilities, are subject to an income tax. The tax will be used by Jackson Township to offset property taxes for safety forces in an effort to keep property taxes down. The agreement also protects our commercial tax base by prohibiting annexation by the City of Canton for 50 years, and blocks North Canton from annexing property west of the railroad tracks.

Jackson Township Government Overview

On August 9, 2016, Jackson Township entered into its second Joint Economic Development District (JEDD) agreement with the City of Canton. This JEDD is located at 8000 Freedom Avenue and encompasses Stolle Machinery. This JEDD was the first which involved the relocation of a business from the City of Canton to Jackson Township and involved collaboration between the Township, City and State of Ohio to keep this company in Stark County and in the State. All who work within the district are subject to an income tax. The tax will be used by Jackson Township to offset property taxes for highway and safety forces in an effort to keep property taxes down. Like the 2011 JEDD, this JEDD also protects our commercial tax base by prohibiting annexation by the City of Canton for another 50 years, and requires the City of Canton to assist the Township in defending any effort to annex property in the Township.

The township has since completed economic development agreements with ComDoc, The Schroer Group, Fitzpatrick Enterprise at Strip Extension and the Greens of Jackson (formerly Tam O'Shanter). These businesses have brought in hundreds of jobs, with more to come, and helped balance the Township's property tax base of residential to commercial. The development agreements will also assist financially with funds to improve roads and intersections that will help reduce traffic congestion. Once the Township's investment costs are recuperated, all the new income will go to help support the Township safety forces.

The Fiscal Officer/Economic Development Director prepares projections of the economic impact that these tools have on the Township's current and future financial condition.

The Fiscal Officer also oversees more than 90 street lighting districts serving more than 4,200 parcels. Each September, an assessment is sent to the Stark County Auditor for each individual parcel in the lighting districts. These assessments are shown on each parcel's property tax bill. The Township deposits the revenue received from the County for the lighting district assessments into a Lighting District Fund. This fund is then used to pay the monthly bills from the power companies for the costs associated with maintaining and operating the street lights.

The Township has been proactive by establishing the following funds for anticipated expenses. Three types of funds that are permitted by statute are:

1. Accumulated Benefits Fund for the purpose of accumulating resources for the payment of accumulated sick and vacation leave, compensatory time, upon termination of employment or retirement.
